

Turn sensor ports into self-draining sampling ports

with **Pharmenta®**
AptiPort®
SAMPLING VALVE

Finally! A sampling valve that fits the same standardized ports sensors have used for decades!

- ✓ Internal valve passages fully drain – even in upward-angled ports.
- ✓ CIP/SIP.
- ✓ Installs in minutes.
- ✓ Easily retrofit existing vessels made during past 50 years!
- ✓ Sizes to fit 1 inch (25 mm) or 3/4 inch (19mm) portholes.
- ✓ Your choice of actuators, diaphragm materials and connections.

The patented AptiPort® Sampling Valve is the only sampling valve in the industry that drains when installed in standard, upward-angled sensor ports.
